Field	Question	Answer				
note_consentcg1_gs	<p><b>Guardian/Girl's Advocate Consent:</b></p> <p>My name is [enumerator_name_gs]. I work for Innovations for Poverty Action (IPA). IPA is doing a study to find out about the life and safety of small small girls in Nimba County. In 2015, we came here to talk to [girlname_gs]. Now, we have come again to talk to her and find out how things have changed over the two years' period. To do this, we will ask about their experiences with school, how they feel about themselves, their plans for the future, their experiences with boys, and challenges they might face.</p> <p>First, I will describe the important things you need to know about her participation, and then ask you if you will agree to it by signing this form once you feel like you understand. You will get to keep a copy signed by me. If you agree, the girl will also be asked if she wants to participate and if she also says yes then we will talk to her in private for approximately one hour. No one, including you, will know the answers she gives during this interview.</p>					
note_consentcg2_gs	<p><b>Benefits, Risks and Confidentiality:</b></p> <p>Participation is entirely voluntary, and there is no penalty for not participating. There are no direct benefits or risks if the girl participates, although we hope that the information she shares will help us improve the situation for girls in Nimba County.</p> <p>During the interview, if the girl feels uncomfortable answering any questions she can refuse to answer it or end the interview at any time with no penalty to her, you, or anyone in this household. The information collected in this interview will be kept private on an internet database protected by a password. No person in any community will have access to the information, unless she is observed to be in extreme danger of immediate harm. In such cases, IPA may be mandated to report the situation in accordance with Liberian law. Otherwise, no person in any community will have access to the information the girl or caregiver will share with us. We will not release or publish any information that could expose them or their household. The information they provide will be used in a private and confidential manner and instead of their name we will use a number code in our database, which means that no one will know how they answered the questions. The interview will not be audio recorded.</p>					
note_consentcg3_gs	<p><b>Additional Information:</b></p> <p>The ethical review committees of the University of Liberia in Monrovia and of the Population Council in the USA have approved this study. If you or the girl in your care have any complaint about the way she was treated during the study, or any possible harm she might have suffered, please contact the people mentioned on the form provided:</p>

To do this, we will ask about your experiences with school, how you feel about yourself, your plans for the future, your experiences with boys, and challenges you might face. First, I will describe the important things you need to know about participating, and then ask you if you will agree to it by signing this form once you feel like you understand. note_consentem2_gs	<p><b>Benefits, Risks and Confidentiality:</b></p> <p>Participation is entirely voluntary, and there is no penalty for not participating. There are no direct benefits or risks if you participate, although we hope that the information you shares will help us improve the situation for girls in Nimba County.</p> <p>During the interview, if you feel uncomfortable answering any questions you can refuse to answer it or end the interview at any time with no penalty to you or anyone in this household. One risk that we want you to consider is the unintentional breach of confidentiality, meaning that something you say can accidentally provide information to others. However, we will take all the necessary precautions to prevent this by keeping the answers private. No person in any community will have access to the information, unless you are observed to be in extreme danger of immediate harm. In such cases, IPA may be mandated to report the situation in accordance with Liberian law. Otherwise, your answers will be kept a secret and only available to the people running this study. The information we use to find you in the future will be kept separate from your answers to questions, and we will use a secret code for you that means no one will know how you answered the questions.</p>					
note_consentem3_gs	<p><b>Additional Information:</b></p> <p>The ethical review committees of the University of Liberia in Monrovia and of the Population Council in the USA have approved this study. note_assentg1_gs	<p><b>Minor Assent:</b></p> <p>My name is [enumerator_name_gs]. I work for Innovations for Poverty Action (IPA). IPA is doing a study to find out about the life and safety of small small girls in Nimba County. In 2015, we came here to talk to you. Now, if you agree to take part, then you and I will talk in secret for about one hour, and nobody will be there to hear your answers. When we asked your caregiver _____ (name), he/she agreed that you can take part but please know that you are not forced to.</p>					
note_assentg2_gs	<p><b>Benefits, Risks and Confidentiality:</b></p> <p>To take part in the study is free. There is no benefit or favors to you if you take part, and nothing bad will happen if you take part. Also, nobody will do anything to you if you don't take part. When we start talking, if you don't feel like answering some questions, you are not force to answer. You can stop talking to us any time you want to and nobody will do anything to you for not talking. Again, I say every answer you give will be secret, nobody will know or hear about it. But if we see that you are not safe, the laws in Liberia say I need to tell it to the health workers. If you want, we can help you with someone to talk to about this. There's a small small chance that accident may occur with the information that you give us. But we do our possible best to protect your information. The information you give us can be used in our reports. Your name, family name, or even town name will not be mention in any reports. We hope the answers you give us in this study will help make girls better in Nimba County.</p>

I will read statements to you and I only want you to tell me <u>HOW MANY</u> of these statements are true for you.</p> <p>We all know that sometimes counting can be difficult but we have a plan to make the counting easy and simple for you. You will put your right hand into your left palm behind your back. while your hand is behind your back, you will raise one of your right fingers starting with the finger next to the thumb and continuing with the middle finger whenever I read a statement and the statement is TRUE for you.</p> <p>[ENUMERATOR: PLEASE DEMONSTRATE TO HER BEFORE YOU START]</p> <p>After reading the statements, I will only want you to tell me how many of your fingers are raised by raising your right hand in the air for me to see.</p> <p>Please don't let me see or know whenever you raise your finger after reading any statement. We're doing these things so as to respect your privacy and for you to feel comfortable with us and our interview.</p> <p>[ENUMERATOR: PLEASE CONFIRM BY SAYING, "I SEE 'X FINGERS RAISED.' IS IT CORRECT?]</p> <p>Please feel free to asked me to read the statement just in case you did not understand. Before we start, do you have any question for me?</p> <p>[ENUMERATOR: PLEASE HAND OVER TO THE GIRL THE VISUAL AID WITH THE STATEMENTS WRITTEN ON IT FOR THE GIRL TO FOLLOW AND TURN YOUR BACK TO THE GIRL BEFORE YOU READ THE STATEMENTS.]</p>

note_outtro_gs	That's the very last question I have for you. Thank you so much for taking the time to complete this interview, I realize that some of the questions were difficult. Do you have any questions now that we are finished?  Often, in answering questions such as these, people find that there are issues they would like to discuss further with someone who can give them additional information or support. We don't want to leave anyone with concerns that we might be able to help with. Before I leave, I want to let you know that you can contact me or other members of the research team at any time with questions or concerns. You can also go to a local health and psychosocial care providers to discuss the issues you talked about with me today. I can give you a referral list if you would like.  [ENUMERATOR: Leave the care facilities contact list with her. If she does not want to take the list, inform her that she can contact the research team at any time for assistance.]
