

Period #, Task 1

* Indicates required question

1. First Name Initial (First Letter Only) *

2. Last Name Initial (First Letter Only) *

Video Assignment Instructions

Solve the problem below, and then **create a short video** in which you play the role of a math tutor explaining the problem. Explain each step and show your work.

Your video should be **emailed directly** to your teacher.

The style of the video is up to you – your video could be a “TikTok” style explanation, or it could be a recording of the writing on your notebook as you explain your work, etc.

3. Answer the question below. **Note that you can click on the link provided below the problem** if you would like to see the solution to a very similar problem. *

If $n = 13$, what is the value of $15 - (n + 4)$?

- A) 2
- B) 6
- C) -2
- D) 32
- E) None of the above

Mark only one oval.

- A
- B
- C
- D
- E

If you would like help, **the link below provides a video that explains** the solution to a very similar problem:
