

Getting Started with Metadata Contribution

Welcome to the portal for providing enhanced metadata for your data deposit at openICPSR. On the following page, you will see a split-view interface, where:

- The right panel shows a screenshot of your data deposit on openICPSR.
- The left panel consists of text boxes for you to provide enhanced metadata to your openICPSR data deposit.

As you will see in the next page, your current data deposit has very sparse metadata information. To further enhance the findability of your data, we ask that you spend up to 20 minutes to provide additional metadata. Your contribution for the metadata fields will be reflected in your openICPSR deposit after we finish collecting the metadata from the AEA authors.

Please find an annotated example below.

Sincerely,
Lars Vilhuber
AEA Data Editor
