

**ADDENDUM TO “CREDIT WHERE CREDIT IS DUE: ATTRIBUTION AND REBEL GOVERNANCE IN CONFLICT-AFFECTED MYANMAR” (AEARCTR-0015406)**

This pre-analysis plan (PAP) concerns the same project as the one registered in PAP AEARCTR-0012552. We had obtained additional funding from J-PAL to collect additional data on the impact of public service provision on preferences about governance in conflict-affected areas, and this PAP was written with this objective in mind. Unfortunately, due to the deteriorating security situation in Myanmar, we were unable to carry out this data collection.

From this PAP, we can therefore only test pre-registered Hypothesis 1. Hypotheses 2-4 were contingent on the additional data collection.

Instead of writing two separate papers, we have consolidated all analyses into a single paper.
