CNT0_2	Teacher Verbal Consent Hello! My name is [Z.3a]. I am from an NGO called Innovations for Poverty Action (IPA). I am visiting today because we are conducting a study on education in Liberia. The purpose of the study is to evaluate strengths within Liberia's education system by measuring student learning outcomes, school management, and teaching techniques. Through this study, we want to better understand methods for improving primary education in Liberia, as measured by student performance and other various school-level indicators. We invite you to participate in this study, which has been approved by the Education Ministry. If you agree to participate, you will be asked to complete a short interview. The interview will cover questions regarding your motivation as a teacher, time per task, teaching techniques, and training. The interview will take approximately 45 minutes of your time. I (or a member of the research team) may return again at some time but you can choose not to participate in the follow-up interview if you wish. There are no direct benefits to you and the school from this research. However, the results from this project are aimed at shaping the educational policy in Liberia. You are free to skip any question that makes you feel uncomfortable. All information collected from you and the school will be kept strictly confidential. Your responses will be coded linking your number with your name and stored on a secured server. Only our researchers at United States of America and Innovations for Poverty Action, Liberia will have access to information that may identify you. The information you give us may be used in our reports, but no personal identifying information will ever be mentioned. To take part in this research study is voluntary. Declining to participate will not lead to penalty or loss of potential benefits. This study has been approved by research institutions in the US and Liberia that care about your safety. For more information you can contact us on the phone numbers listed in the consent form.
