Efficient water use is essential to managing our shared water resources

Why am I receiving this letter?

You are listed as the contact for water diversion identification (WDID) numbers 6505482, 6505430, and 6505485 (Permit numbers 11244-FP, 11476-FP, 18489-FP). We know that a good source of information for producers is often other producers, particularly those close by. Our team at Colorado State University is leading a project to provide this information. We hope that you find it useful.

What is the 20th percentile well?

20% of wells in your groundwater management district (GWMD) recorded less water use than the 20th percentile well and 80% recorded more water use.

Who are your neighbors?

All irrigators in the Sand Hills GWMD are considered your neighbors.
